- **Presentation Material**
  Please note that we will only accept computer-based PowerPoint presentation. Speakers can use their own laptop computer or bring your presentation data to Registration Desk at least previous day.

  1. If you bring your presentation data in a CD-R or USB flash memory stick, please follow the instructions below.
  2) Presentation must be made in PowerPoint readable in Windows. If you would like to use Macintosh, please bring your own computer on site of the presentation.
  2) The computers provided for the sessions will be running the following operating systems with the following application software installed.

  2. If you bring your own laptop computer, please follow the instructions below.
  1) Ensure that your computer is equipped with the VGA connector. Please check the connection test before your presentation.

  If your computer dose not have this connection, please bring an appropriate converter with you. Apple Mini DisplayPort to VGA Adapter (for Macbook Pro) and Apple Micro-DVI-VGA (for Macbook Air) will not be prepared. Please prepare them by yourself when you want to use at the presentation.
