Kyoto 611-0011
Japan

Dear Professor Suzuki

JOURNAL OF SOLID STATE CHEMISTRY

I am delighted to inform you that one of your papers has been recognised as a 'top 25' most cited article from *Journal of Solid State Chemistry (JSSC)*, as published 2005-2008*.

Syntheses of TiO₂(B) nanowires and TiO₂ anatase nanowires by hydrothermal and post-heat treatments

Journal of Solid State Chemistry Vol 178:7 2179-2185 pp
Yoshida R., Suzuki Y., Yoshikawa S.

To put this achievement into some context:

- The journal's impact factor increased to 2.107 this year; a clear reflection of the high quality of papers being published.
- Over half a million full text articles were downloaded from JSSC during the last year; that's almost one every single minute throughout the year.
- Over 5,000 institutes currently take JSSC online via ScienceDirect, providing unparalleled worldwide access to the journal's content.
- Approximately 20,000 scientists access the journal online, every month.

May I take this opportunity to thank you for submitting your paper to the *Journal of Solid State Chemistry*. I hope the publishing experience was to your satisfaction, and you will consider submitting your next manuscript to this important international journal (online submission at: <http://ees.elsevier.com/yjssc>).

Yours sincerely,

James Milne PhD
