

## Welcome message

### Tunisia-Japan Symposium 2014

#### *“R&D of Energy and Material Sciences for Sustainable Society”*

November 28-30, 2014, Gammarth (Tunisia)

Dear colleagues and friends,

It is with honor and pleasure to invite you to join us to the **Tunisia-Japan Symposium on “R&D of Energy and Material Sciences for Sustainable Society” (TJS 2014)**. The TJS 2014 supported by JSPS and MHESRICT under **Japan-Tunisia Research Cooperative Program**, will take place at the beautiful touristic village of Gammarth, Tunisia on November 28<sup>th</sup> – 30<sup>th</sup>, 2014 at El Mouradi Gammarth Hotel. Given the current challenges facing the fields of energy production and sustainable development, the necessity of promoting and reinforcing sustainable partnership between Tunisian and Japanese researchers in the strategic domains of Energy and Materials is an essential enterprise.

**Energy & Material Sciences** have attracted considerable attention for many years. At the crossroads of physics and solid-state chemistry, surface science and process engineering, the fields of **Energy & Material Sciences** provide fascinating and promising scope for research to tackle future challenges. The goal of this symposium is to bring researchers, engineers, students and industrialists to the areas of **Energy & Material Sciences**, to share experiences and original research contributions, to shed light on recent developments and to discuss the potential breakthrough innovations. Attending this conference is the most effective way to keep current within the research and industry and to establish useful contact.

With our best wishes for fruitful discussions and pleasurable encounters at the TJS 2014 in Gammarth.

Yours sincerely

Tunisian co-chair  
Prof. Brahim BESSAÏS  
Research and Technology Centre of Energy  
(CRTE<sub>n</sub>)  
Director General
